INFORMATIONAL BULLETIN

IN-LINE SKATING and SKATEBOARDING

Sunnyvale's Parks and Recreation Department considers in-line skating and skateboarding to be positive recreational pursuits and welcomes safe, courteous skating throughout the City park system.

- **Where can I IN-LINE SKATE or SKATEBOARD?**

A few of the more popular in-line skating and skateboard areas are the multi-purpose concrete bowls located at Lakewood, Raynor, Serra and De Anza Parks. Skateboarders and in-line skaters are also welcome on the hard-surface sidewalks and pathways throughout the park system so long as they do not pose a hazard to other forms of traffic such as pedestrians, bicyclists, or joggers. In-line skating is allowed in public park parking lots under the same condition.

- **Where can't I IN-LINE SKATE or SKATEBOARD?**

Skateboarding is not allowed in any public parking lot, and it is illegal to skateboard or in-line skate on any tennis or basketball court maintained by the City (these surfaces are specially treated, are very costly to maintain, and are easily damaged by wheels). Skateboarding which damages public property (such as park benches, retaining walls, or play equipment) is prohibited, as is the waxing of public property to facilitate skateboarding. Waxing can create hazardous conditions for park visitors, and is quite costly to remove. Lastly, in-line skating and skateboarding are prohibited on some school properties. Please obey any related signage.

- **Where can I get more information?**

The City's Parks and Recreation Department also offers introductory workshops for beginning in-line skaters. For information on classes, please call 730-7350. For additional information, you can call the Parks Division at 730-7506.
